*** NET PRICES**

The prices for devices do not include transport and installation.

The devices were manufactured in Europe in accordance with EN 16630:2015-6.

**** MATERIALS AND PRODUCTION**

The devices were made of high quality welding steel. Bent components were made of S355 seamless steel, and straight components - of S235 steel. In order to ensure high corrosion protection, the devices are shot blasted at a high pressure, zinc galvanizing, and powder painted two times. The first layer consists of high quality zinc coating, whereas the second layer is polyester paint resistant to variable weather conditions. Seats made of HDPE and treads made of aluminum.

*** COLOURS

Our standard colours are:

Yellow

RAL 1018 and 7004

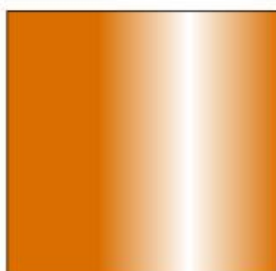

Graphite

RAL 7016 and 9006

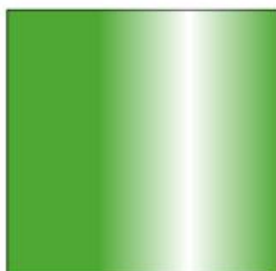

Orange

RAL 2000 and 9006

Lime

RAL 6018 and 9006

It is possible to change the colour for any from RAL palette for an additional charge.
